SPORTS

The School of Mines and Metallurgy of the University of Missouri 1907-1908 Baseball Team.

This section reflects the RollaMO yearbooks between 1905 to 1935. The yearbooks were mainly in black and white but there were some splashes of color here and there. In the 1920's there were some coed interaction and that's were the womens sport teams come in. Since there were no women sports during that time all but one of the women sports teams spreads are in black and white. You may also find some art work from those time periods in this section as well.

The men of Pi Kappa Alpha class of 1945-1946 Missouri School of Mines and Metallurgy.

During the time period of 1946-1955 the Greeks section was called Fraternities or Social Fraternites because there were no Sororities at that time. In order to mimic those years the Sororities are placed at the end of this section. The Fraternites at that time would have a group photo and a few social pictures on their pages along with their cresent or pindent.

LIFE

STUDENT

Photo from the 1977-1978 RollaMO Living Units section.

The Student Life section has had various titles throughout the years. During the time between 1976-1985 some of the section names were Activites, People, Campus Life, etc. And in some books the Student Life section showcased the Greeks instead of everyday life as a college student. So this section really has no boundaries it represents bits and pieces of each style of the 'Student Life' sections in this time period.

#### SUB Con

### edy Series

Robert Henry III Director of Comedy as well as a member of Kappa Alpha Psi has brought to the UMR campus many funny headlines from the comedic world. With the help of the SUB Board Rob managed to have four comedy shows for the veiwing enjoyment of UMR students. Nothing of this calliber has been done by anyone in UMR's history. We asked Rob Henry what inspired him to bring so many comedians to the Rolla campus and his response was, "Though it was a very stressful job, I was enthusiastic about the opportunity I had to give students an outlet from stress through laughter. I was ecstatic to see the way the campus embraced the comedy events. That was truly my reward for the very hard, extremely long, long, LONG hours of work put into each event." In Rob's last show of the year he had four comedians in one night. On behalf of the UMR campus we would like to thank Robert Henry III for taking the time out to help make us all enjoy a little more laughter!

#### When Gas Prices Get

TOO High!

This past year gas prices have been sky high! And with gas prices so high students have been using many alternate ways of getting around Rolla. You may see some students on bicycles, scutters, motorized bikes, even a unacycle, wow! Where gas prices really that bad? Well that's the question that we asked a couple of the students that use these alternate ways of transportation. Many stated that 'it makes no since to pay all that money just to drive to class.', others said 'I rather save my gas for my trip

home!' and our most popular response was, 'It's much easier to find a spot to chain up my bike than it is to find a parking spot!'

#### New Student Lab

The former University Center East cafeteria was transformed into a 24 hour student computer lab, loaded with the latest technology to assist students. The lab was opened to the campus Fall 2005. The lab also served as a classroom with each station equipped with its very own Dell Latitude Laptop.

In the 70's and 80's the RollaMO would display a section or spread of the Universities Queens. So this page is in remeberance or a 'throwback' to acknowledge all of UMR's Queens!

### Gospel Medley

Tax Her in

The Gospel Medley Concert was an opportunity to unite the Christian body on campus and in the community. It was a celebration of diversity in Christianity and promoted Godly life choices to the attendees. After the event Daronn Williams, the master mind behind this event, stated "I was so excited to see a rainbow of people-White, Black, Asian, Middle Eastern, young, old, etc. That's how Heaven is going to be. It's time to practice unity and true love. It's time to look past someone's race, ethnicity, or even age. God has blessed us all with unique characteristics and cultures. Instead of fighting to showcase momentary strength, let's show eternal love."

Why do you like being a Tech?
"I like being a TECH because I feel
it's a great way to reach out to the
UMR community and teach students
about health-related topics."

#### ECHS

Tech Spotlight: Left: Michael Ojo

Major: Computer Engineering

Year: Senior

How long have you been a Tech? "1year"

What has the Tech's done for the UMR campus?

"Provided information on health related topics."

### UMR's Female

Face it UMR has always been a predominantly male university. When the first yearbook came out there was only one female on campus and that was the libraian! However, the female to male ratio has come a long way from 1950 when there were just six female stuudents!

### ACADEMICS

Photo from Missouri School of Mines and Metallurgy 1944-1945 Chemical Engineering College section.

Between 1936-1945 UMR was called the Missouri School of Mines and Metallurgy. There weren't as many students enrolled as there are today. Since there weren't many students there weren't many teachers so they were able to have individual photos of each faculty member. Instead of individual photos each professor has their position or their educational status to show their individuality.

## Editors Notes

WOW...are we finished yet! Well if you haven't figured it out by now my name is Trinea Turner, the Editor In Chief of

the 2005-2006 RollaMO. It's been a long struggle, challenge, party, etc. to get this book out and published. Myself and my wonderful team of staff members worked so hard to make this yearbook the best ever. I would like to personal thank all of the RollaMO staff members that stuck it out to the end and didn't give up without you all this book couldn't and wouldn't be possible. So thankyou from the bottom of my heart! When I took the job as Editor In Chief I was excited, a big step for me. But as time went on I thought to myself "What did I get myself into?!" But like I stated before it was both a challenge and a honor to lead the 100th Edition of the RollaMO and I wouldn't give back my experiences for anything. I tried to include as many cultures and backgrounds as I could in this book but, of course, I couldn't get everyone but trust me I did try. As in any yearbook there may be some mistakes and as EIC I apologize for any. I would also like to thank Janson and Kathy McHaney for all of there help. Mrs. McHaney created the front and back cover of the year book and she did a fantastic job! I hope everyone will enjoy this edition of the RollaMO and may it bring back wonderful memories and lots of happiness!!
